

Need to know your costs ahead of time?

Get estimates in real time, over the phone or online.

At UC Health, we offer real-time estimates for select patient procedures and services. The added transparency can inform you about your financial obligations and get assistance with paying for costs before you receive care.

How to get an estimate:

- Receive a CPT code from your provider.
- Provide the CPT code over the phone or visit our webpage to submit an estimate request online (contact information is below).
- Estimates may be quoted with or without insurance. When confirming insurance, your deductible and out-of-pocket maximum contributions will be factored into the estimate.
- Estimates over the phone are also provided in writing upon request.
- In the event an estimate cannot be determined immediately, UC Health will follow up with an estimate within two business days.
- Note: Estimates are not a guarantee of service. Estimates do not include non-UC Health-employed physician fees, which may be determined at the time of service.

Contact UC Health:

- Phone: 513-418-2678
- Website: uhealth.com/financial/pricing-disclosure/
- Hours: 8 a.m. – 4:30 p.m. (Monday – Friday)
