## Course Overview

This program offers an educational opportunity for nurses in the hospital, long term acute care, rehabilitation, skilled nursing and home settings.

## Course Topics

### Injury Trends and Prevention

*Kelly Besl RN, BSN, Trauma Program Manager*  
*Lauren Stenger RN, MSN, Trauma Outreach and Prevention Coordinator*

Discuss trends within Level 1 Trauma Centers related to traumatically injured patients. Introduce basic injury prevention concepts and discuss how they apply to trauma patients and the general population.

### Trauma Accessories

*Brittany Allen RN, BSN, Trauma Nurse Clinician*

Discuss types of devices frequently used in trauma patients, review differences, how used and proper nursing interventions.

### Orthopaedic Fracture Treatment

*Keith Zurmehly MPAS, PA-C*  
*Orthopaedic Physician Assistant*

Review and discuss orthopaedic fracture treatment options and nursing implications.

### Spinal Cord Injuries

*Dr. Christina Williams, Trauma Surgery/  
Critical Care Physician*

Discuss spinal cord injuries and nursing interventions.

### Analgesia Pharmacology

*Molly Droege Pharm.D., BCPS, Trauma Surgery/  
Acute Care Surgery Clinical Pharmacist*

Explain pain pathophysiology, describe analgesic medication pharmacology, and identify adverse events associated with analgesic medications.

### Pulmonary Volume Expansion

*Jamie Hamilton RT, RCP, RRT,  
Clinical Manager of Respiratory Care*

Discuss the use and goals of a pulmonary volume expansion protocol.

## Early Mobilization

*Lisa Glanz PT, Physical Therapy Supervisor*  
*Kathleen Grosse PT, DPT, Lead PT in SICU*

Discuss the importance of early mobilization, precautions, and equipment and technique options for the trauma patient population.

## Trauma Case Studies

*Jennifer Lemmink RN, MSN, CCRN,  
Trauma Clinical Nurse Specialist*

Follow a trauma patient through their hospital course from emergency room to discharge.

## Course Objective

The purpose of this course is to help nurses become more familiar with common traumatic injuries and the treatment required to care for the trauma patient.
