UC Health  
Air Care & Mobile Care

## Air Care & Mobile Care

Air Care & Mobile Care has been the region’s most comprehensive air and ground medical transport program for 30 years. While most transport programs bring the patient to the Level One Trauma Center; Air Care & Mobile Care brings University of Cincinnati Medical Center’s Level One Trauma Center – and its Heart, Burn and Stroke Center – to the patient. The program provides air transport and three levels of ground transport (Mobile Intensive Care, Advanced Life Support or Basic Life Support). We are also the only service in the region to be accredited in all four levels of medical transport by the Commission on Accreditation of Medical Transport Systems (CAMTS) – the highest standard in measuring medical transport services. Safety is our primary core value at Air Care & Mobile Care. Helicopters are operated by Metro Aviation, Inc.

EMS Coordinator ..... (513) 584-EMS1 (3671)

## Criteria for Helicopter Transport

Air Medical Transport is based on the patients’ acute problem factored with the elements of time, distance and the need for specialization.

### Communication Center

**Toll-Free.....** (800) 826-8100  
**Dispatch.....** (513) 584-CARE (2273)

### Initial Information Needed

- Description of situation
- Landing zone location (cross street or Hwy. Rt. Number)
  - Pediatric or adult patient
  - Call sign of landing zone vehicle or officer

### Setting Up a Landing Zone

**Size.....**100 ft. x 100 ft. or larger  
**Surface.....**Flat  
Use roadways, cut fields or asphalt areas. Avoid gravel and areas with sand or loose, dry soil. Identify, minimum of two, clear approach paths into the landing zone.

### Identify All Hazards in the Area

- Wires
  - Light poles
  - Towers
  - High-tension lines
- (Please note that structures less than 150 feet are not required by law to have lights on them.)

### Walk the Landing Zone to Check for Hazards

- Loose items
- Debris
- Pieces of wood or metal

### How to Mark the Landing Zone

- Strobe lights
- Flares
- Vehicles on the four corners

### Landing Zone Security

Keep all personnel and bystanders at least 300 ft. from the landing zone. Rotor wash generates an 80 m.p.h. wind force.

### Never Approach the Aircraft

If needed, you will be signaled to approach the aircraft.

## Purpose

- To care for and transport patients safely, providing clinically excellent care and dignity.

## Mission

- To support the mission of UC Health by bringing the World Class care of University of Cincinnati Medical Center to the patient through Advanced Transport Medicine.

## Vision

- To be the recognized World Leader in transport medicine – the standard by which other programs are measured.

## Culture

- To demonstrate actions and behaviors that support our Purpose through open communication, asking questions, professionalism, education, honesty and dedicated work. Excellence.

## Values

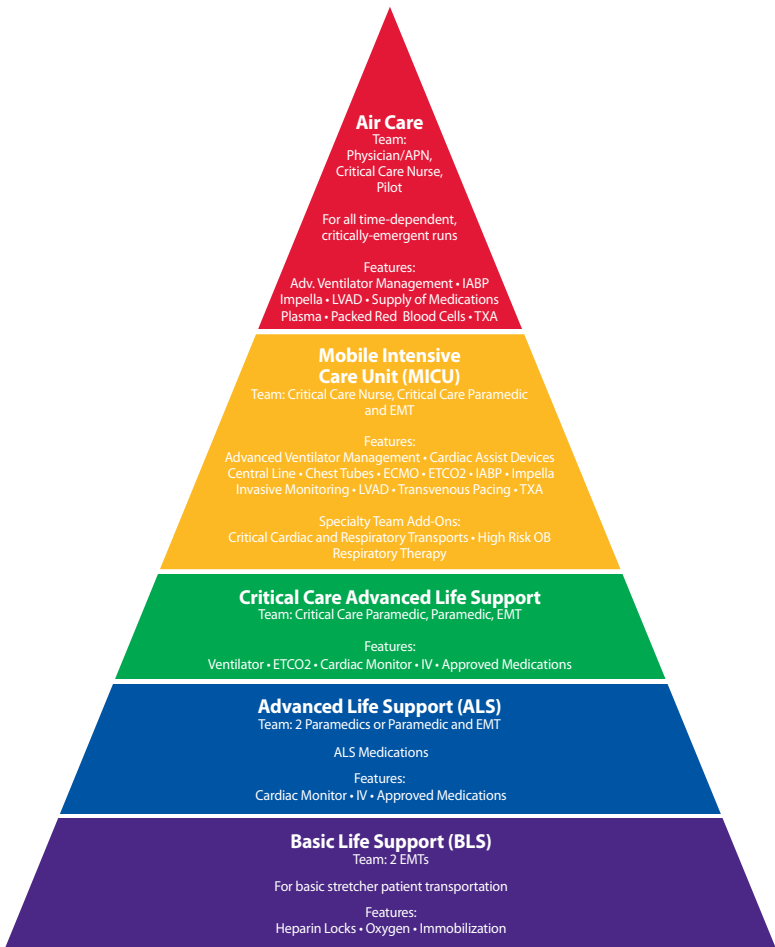

- Safety – What is the safest way to accomplish a task or transport
- Clinical Excellence – What is best for the patient.
- Financial Sustainability & Growth – Growing the program to support our patients for the next 30 years; 1984 - 2044.
- Community Service & Support – Educating and supporting the community to be safer and healthier.
- Industry Involvement as Leaders – Developing “Best Practice” in safety, clinical care and operations so that others may learn from us.

Saving Lives – Impacting Lives, for over 30 years.

## Transport Pyramid

UC Health Air Care & Mobile Care is the most comprehensive air and ground medical transport program in the region. Our primary purpose is to assist other health care providers, whether in a hospital or at the scene of the patient’s illness or injury, by providing prompt response and timely patient transport.

No matter how critical the need, our experienced professionals provide reliable, compassionate and high-quality care for your patients at a moment’s notice. Available 24 hours a day, our devoted team of emergency and critical care health care professionals average more than 12 years of experience, making us one of the most experienced transport teams in the regions.
